Review of Title 5 Regulations as it relates to the Reassignment of Accountability Data

TOM TORLAKSON
State Superintendent
of Public Instruction

Reassignment of Accountability Data

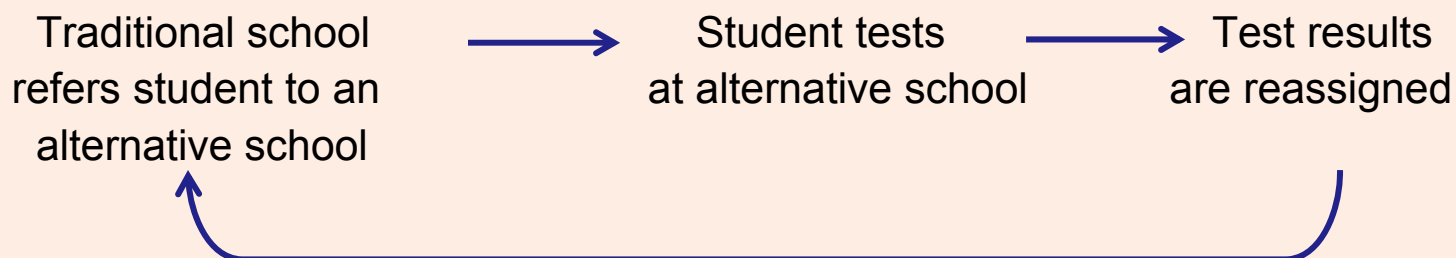

- The 2013–14 Budget Bill (Assembly Bill [AB] 97) requires, by January 30, 2014, that the PSAA Advisory Committee review and recommend to the State Superintendent of Public Instruction (SSPI) and the State Board of Education (SBE) any proposed changes to the *California Code of Regulations*, Title 5 (5 CCR) sections 1039.2 and 1039.3 which reassigns accountability data to the school and/or district of residence.

of Public Instruction

Reassignment of Accountability Data (Cont.)

- Currently, 5 CCR specifies that students who are referred to an alternative school and who test at the alternative school shall have their test data reassigned to the school and district that referred the student:

of Public Instruction

Reassignment of Accountability Data (Cont.)

- 5 *CCR* specifies that accountability data for students referred to an alternative school by a juvenile court judge or other correctional or judicial official shall not be reassigned back to the school or district of residence. For this reason, the review of the 5 *CCRs* are based on non-juvenile hall students.

Reassignment of Accountability Data (Cont.)

- List of all the types of non-juvenile hall schools at the county level:
 - Special Education Schools
 - Opportunity Schools
 - County Community (alternative education program [AEP])
 - Elementary Schools
 - Intermediate/Middle Schools
 - Alternative Schools of Choice
 - K-12 Schools
 - High Schools
 - Continuation High Schools (AEP)
 - District Community Day Schools (AEP)

Local Control Funding Formula

- The requirement to review current regulations is based on the passage of the local control funding formula (LCFF) legislation.
- The LCFF changed the way local educational agencies (LEAs) are funded from a system of differing revenue limit and categorical funds for each LEA to a more transparent and equitable funding system that provides a base grant amount per student plus additional funds for English learners, foster youth, and low income students.

TOM TORLAKSON
State Superintendent
of Public Instruction

Local Control Funding Formula (Cont.)

The LCFF also made specific changes to the way funds are provided to county offices of education (COEs):

- Prior to passage of the LCFF, COEs received funding for district students who attended county operated schools **directly** through their revenue limit funding from the state.

TOM TORLAKSON
State Superintendent
of Public Instruction

Local Control Funding Formula (Cont.)

- Under LCFF, funding for district students attending county operated schools is provided to the district of residence and must be transferred by the district to the COE.

TOM TORLAKSON
State Superintendent
of Public Instruction

Local Control Funding Formula (Cont.)

- LCFF legislation requires that the PSAA review the re-assignment of accountability data to ensure that changes in COE funding did not have unintended consequences for school and district accountability.
- Legislation requires that the PSAA provide recommendations on any changes to the SSPI and SBE by January 30, 2014.

State Superintendent
of Public Instruction

Reassignment of Accountability Data Options

- Options for reassigning accountability data from a COE back to the district of residence:
 1. Add regulations that reassign accountability data for students who are served by COE, but for whom the county is not directly funded, back to the district of residence.
 2. Status quo. Continue using the existing reassignment rules.
